JUNE CARL GENAVIA

👤 Profile

Detail-oriented junior developer with a background in creating structured content and supporting clear, goal-driven communication. Now applying these strengths to software development, with hands-on experience in building web applications using JavaScript, Node.js, PHP, and React, and working with databases such as PostgreSQL, MySQL, and MongoDB. Familiar with deploying and managing applications in AWS environments. Skilled at breaking down complex tasks, presenting technical ideas clearly, and adapting solutions for different users and needs. Known for delivering high-quality work, staying consistent under pressure, and collaborating effectively in team environments. Eager to contribute to projects that drive improvement, meet deadlines, and support long-term success.
